Make *their* Mornings Delicious

Breakfast Solutions

Customers crave more than just coffee each morning. They want a breakfast that can power them through the day. The Egg Station and Muffin Toaster by Antunes makes it easy to serve a fresh, made-to-order breakfast sandwich in just minutes. Moist egg, grilled ham, and melted cheese on a toasted English muffin—it's the perfect way for your customers to start their day.

✓ MOIST EGG

The combination of heat and steam generated by the Egg Station cooks eggs, and it cooks them quickly. The cook time is only 120 to 150 seconds, so it's easy to serve eggs that are hot and fresh.

✓ GRILLED HAM

Top off any breakfast sandwich with a piece of grilled ham. The front grill surface available on the Egg Station means ham and eggs can be cooked at the same time, so there's no delay in serving customers.

✓ TOASTED MUFFIN

It's not a breakfast sandwich unless it's served on a golden-brown English muffin. The Muffin Toaster cooks a batch of up to 12 muffin halves in only 90 seconds to keep up with the growing breakfast daypart.

Breakfast Solutions

High margins, increased sales, and expanded hours make breakfast a great opportunity for every foodservice operation. The right equipment, such as the Egg Station and Muffin Toaster by Antunes, can make it easy for any sized operation to add freshly made breakfast items to the menu that can provide an immediate boost to daily profits.

Cost Per Sandwich:

Medium Egg	$0.09
Canadian Bacon	$0.17
Cheese Slice	$0.10
English Muffin	$0.29
Total	**$0.65**

Daily Profit:

With a simple breakfast sandwich, which costs only $0.65, easily selling at a price of $2.49, the daily profit quickly adds up, even when sold at low volumes.

Number Sold Per Day	10	20	40	80
Daily Sales Volume	$24.90	$49.80	$99.60	$199.20
Daily Cost	$6.50	$13.00	$26.00	$52.00
